Here’s the second set of case studies, real life stories of pledges that people have made to End Racism. Please use them for inspiration for your own pledge and to spread the word!
We will help to coordinate the campaign locally with partners & residents. We will organise community activities to bring people together. We will monitor our activities by ethnicity to ensure fair access. If residents report racial harassment to us we will prioritise these cases.

We will continue to organise community events which bring people together from different backgrounds. We hope they will encourage a deeper understanding of a range of cultures.

THE PEOPLE MADE A CHANGE...

B3 LIVING.
Have you witnessed or experienced racism? B3 have recently become a third party hate crime reporting centre.

AND THE COMMUNITY SAW THE BENEFITS.
CORNWALL

Ginnie and Kayode were concerned for children, like theirs, who were in the minority in their schools and communities.

OUR COMMUNITY GROUP
Our kids get to see themselves reflected in others here.

"Let's work together to help more families."

END RACISM THIS GENERATION
We will write a handbook for parents and carers of children who are visible by their colour, about building kids' sense of identity and helping them deal with racism.

PLEDGE

Children Visible by Colour in Cornwall

The handbook will be shared across Cornwall.
